Local Ordinances

Visit austintexas.gov/covid19 for a complete list of control orders and emergency rules issued by the City of Austin and Travis County

March 6, 2020 – Mayor of the City of Austin declares local state of disaster

March 6, 2020 – Travis County Judge declares local state of disaster

March 12, 2020 – City of Austin City Council ratifies the local state of disaster

March 13, 2020 – City of Austin suspends all utility disconnects

March 17, 2020 – Travis County Justices of the Peace orders all scheduled court proceedings, except for essential court proceedings, will be reset to a date after May 8, 2020.

March 19, 2020 – Texas Supreme Court postpones evictions except in cases of physical danger

March 24, 2020 – Mayor of Austin issues Shelter-in-Place, “Stay Home, Work Safe” Order. This order excludes all essential business and people experiencing homelessness.

March 24, 2020 – Travis County Judge issues Shelter-in-Place, “Stay Home, Work Safe” Order. This order excludes all essential business and people experiencing homelessness.

March 26, 2020 – City of Austin City Council implements a 60 day grace period for renters in Austin before and eviction notice is filed.

April 6, 2020 – Travis County Judge Sarah Eckhardt and Mayor Adler issued guidance that wearing a fabric face mask outside one’s residence
Community Resources

Basic Needs

City of Austin

- Map showing the locations and operations of services available to those experiencing homelessness during the Covid-19 response
- List of available resources

[Image of map]

Neighborhood Centers

- [http://www.austintexas.gov/department/neighborhood-centers](http://www.austintexas.gov/department/neighborhood-centers)
- All City of Austin Neighborhood Centers are closed to the public for regular services.
- Providing emergency food deliveries on a limited basis, call 512-972-5133
- Providing rent and utility assistance to eligible individuals, call 512-972-5780

2-1-1

- Dial 211 on your phone or visit [http://www.211.org/services/essential-needs](http://www.211.org/services/essential-needs)

ConnectATX

- [http://www.connectatx.org/](http://www.connectatx.org/)
- Online guide containing food, housing/utility, transportation, job training and education, and health resources
Internet and Computer Access

Digital Empowerment Community of Austin
- Guide includes information on options for low-cost internet access, computer access, and online learning resources

Digital Literacy Assistance: Essential Services Provided by Austin Free-Net
- Workforce Development
- Job Skills Training
- Resume
- Employment Application(s)
- Social Services Application(s)
- Other essential needs requiring computer or internet access urgently

Austin Free-Net can assist. Please call: 512-974-1463 or email: workforce@austinfree.net to make an appointment.

Food Assistance

Travis County Community Centers Food Pickup
- Map and Number for all Travis County Community Centers
- First, the case manager or client should call the Community Center closest to them to place an order at the pantry and arrange an appointment time for pick-up.
- If the client has already placed a pantry order and already has an appointment time for pick-up, the case manager can call that Community Center and let them know that they will be picking up on behalf of the client. No documentation is needed.
- At the time of the appointment, the pantry items will be placed on a table outside of the Community Center (locations vary, depending on the Center).
- At this time, all seven Community Centers have food, though some are running low on staples (rice and meat).
- Case managers can coordinate across agencies if desired. For example: picking up multiple orders for different residents that all live at the same property

Food Delivery (clients can use SNAP Benefits)
- https://www.schwans.com/
- FAQ from website:

Can I use electronic food stamps (EBT) online?

You may place an order online, but you’ll need to hold your order with a credit card. To use an EBT card for payment, please present it to your Route Sales Representative upon delivery. If you aren’t home for your scheduled delivery, the credit card on file will be charged.

“Return to Work” Guidance

- If you feel sick, DON’T COME TO WORK!
  - Any staff that develop signs and symptoms of a respiratory infection while on-the-job, should:
    - Immediately stop work, put on a facemask, and self-isolate at home;
    - Inform the program or clinical manager of information on individuals, equipment, and locations the person came in contact with; and
    - Contact and follow the local health department recommendations for next steps (e.g., testing, locations for treatment).

- Return to Work Practices and Work Restrictions – after returning to work, staff should:
  - Wear a facemask at all times while interacting with others until all symptoms are completely resolved or until 14 days after illness onset, whichever is longer
  - Be restricted from contact with severely immunocompromised client populations until 14 days after illness onset.

- Assess staff and volunteers for potential exposure risks. Redirect vulnerable (aging, chronic illness) staff or volunteers from higher risk positions providing prolonged close contact.
**Preparedness Checklist**

### Preparing Site for COVID-19

- Ensure signage is posted at the facility entrance instructing visitors and residents to alert staff if they have fever, cough, or shortness of breath.

- Check all residents daily for fever, cough, or shortness of breath. Have a separate area where residents who are ill or exposed to virus can go within the facility is needed.

- Provide designated areas

- Have a clear way for people to communicate if they are having symptoms in a safe way.

- Inform residents about COVID-19. Ensure there are educational materials available at the facility about COVID-19.

- Develop procedures for staffing needs and communication: Ensure sick leave policies allow employees to stay home if they have symptoms of respiratory infection.

- Each facility should designate a specific isolation/quarantine area:
  - Designated areas should include providing restroom facilities for symptomatic individuals only; not shared by other residents.
  - Prepare for meals and supplies to be delivered to residents in the designated isolation/quarantine space as needed.
  - **HAVE A PLAN TO SUPPORT TENANTS IN ISOLATION AND/OR QUARANTINE**

---

**Link to:**
## Steps to Take to Lower the Risk Of COVID-19

- **Prohibit or limit visitors at the facility.** Only residents and staff permitted, to the maximum extent practicable.

  GIVE a timeframe and explain why – reduce feelings of disempowerment

- **Prospective residents who appear to be symptomatic** should be connected to the designated isolation space immediately. The designated space be on or off-site.

- **Provide surgical facemasks and gloves** for non-clinical staff and in addition have N95 masks, gowns and goggles for any clinical staff. Surgical facemasks should be available for residents as well.

- **Staff interacting with symptomatic individuals** should provide a facemask to the guest and put on a facemask themselves during close contact with residents. Close contact is defined as within 6 feet for greater than 10 minutes for non-healthcare workers, or greater than 2 minutes if providing healthcare.

- **Practice good infection control.**

  - **Hand hygiene stations** (sinks with antibacterial soap and alcohol gel products) should be readily available throughout the facility, especially at the entrances of the facility. Make sure tissues are available and any sink is well-stocked with soap and paper towels for hand washing.

  - **Ensure employees** clean their hands according to CDC guidelines ([https://www.cdc.gov/handhygiene/providers/index.html](https://www.cdc.gov/handhygiene/providers/index.html)), including before and after contact with residents, after contact with contaminated surfaces or equipment, and after removing items such as masks, gloves, and gowns.

  - **Educate and remind residents** to perform hand hygiene throughout the day, particularly after using the restroom and prior to eating their meals.
- Position a trash can near the exit inside any sleeping areas to make it easy for employees to discard items such as gloves, masks and gowns.

- Increase the frequency of environmental cleaning being done with EPA approved healthcare disinfectant consistent with recommended wet contact time.

- Reducing overall bed inventory may be needed.

- Ensure there are no shared utensils, cups, or linens and residents are requested to wash their hands prior to eating meals.

---

### Steps to Take if There Are Residents in the Facility with Respiratory Illness Symptoms

- Any residents with fever, cough, or shortness of breath should be confined to their room, designated isolation/quarantine space, or a separate area at least 6 feet away from others. Symptomatic residents may be placed with other symptomatic individuals and away from asymptomatic individuals.

- Meals and supplies should be delivered to residents in the designated isolation/quarantine space as needed.

- Again, designated areas should include providing restroom facilities for symptomatic individuals only; not shared by other residents. If symptomatic individuals must travel to other areas of the facility, they should first practice hand hygiene and put on a facemask.

- In programs with only one bathroom, all clients and staff should use masks while in the bathroom. If possible, stagger shower times, ensuring that bathroom ventilation fans run for at least 20 minutes between all showers and leave the window open to facilitate clearing of droplets.

- If symptoms are severe, contact your local hospital or ER.

- People experiencing COVID-19 symptoms who are uninsured and do not have an established doctor can call the COVID-19 Hotline at 512-978-8775 for guidance

- If you plan to transfer the guest to a higher level of care due to worsening respiratory status, notify EMS or local hospital that the guest has an undiagnosed respiratory infection.
- If multiple residents in your facility become newly sick with fever and respiratory symptoms, notify Austin Public Health.

### Strategies for building a compassionate and prepared community

- Program staff should work with the resident’s mental health or primary care provider to secure enough nicotine replacement therapy (NRT) to help eliminate nicotine withdrawal and the desire to leave their room to smoke.

- Community spaces
  - I know how important these spaces are for our population.

- Staff
  - Modeling behaviors

- Provide Tenants with PPE and cleaning supplies
  - it provides a different tone of seriousness
  - Links:
    - [Youtube Video – No Sew T Shirt Mask](https://www.youtube.com/watch?v=)

- Communication

- Cleaning protocols

- Create a sense of Community
  - Posters – make fun and informational posters
  - Make your own poster
    - Hashtags to use:
      - #stayhome
      - #withme (help save lives with me)
      - #StayHome and help save lives #WithMe
      - #quarentineandchill
      - #flattenthecurve

- Help others know what to do and say when someone else isn't adhering to recommended practices.
  - Go back to room
    - “I am really trying to follow the guidelines because I'm worried about getting sick. I hope that you can respect my space and wishes.”

![Graph showing the impact of taking steps to slow the spread of a virus]

- **Number of sick people if we don't take steps to slow the spread**
- **How many very sick people hospitals can treat**
- **Number of sick people if we take steps to slow the spread**

How many people are sick at once

How long has the virus been spreading

Adapted from the CDC
FEDERAL EVICTION MORATORIUM

For tenants in Low-Income Housing Tax Credit properties, public housing, Section 8 (Housing Choice Voucher and project-based), and other housing supported by U.S. Dept. of Housing and Urban Development and U.S. Dept. of Agriculture.*

FROM MARCH 27 TO JULY 25, 2020

1. No New Late Fees
   Landlords cannot charge fees, penalties, or other charges related to nonpayment of rent.

2. No Eviction Notices for Nonpayment
   Landlords cannot give Notice to Vacate or Notice to Terminate (the written notice before filing eviction case in court).

3. No Eviction Filings for Nonpayment
   Landlords cannot file legal action in court to evict tenant for nonpayment of rent or fees/charges.

4. Other Reasons for Eviction
   Moratorium does NOT affect eviction cases filed before March 27, 2020, or evictions based on another reason besides nonpayment of rent or fees/charges.

Utilities & Eviction Assistance

- If you get a Notice to Vacate or Notice that your lease will be terminated, call Texas State Bar Referral Service at 1-800-252-9690.
- If you’re having trouble paying utilities, contact the provider on your bill to ask about a deferred payment plan. Many are providing assistance to people who cannot pay due to COVID-19.

AFTER JULY 25, 2020

5. Extended Notice
   Landlords must give at least 30 Day Notice to Vacate before filing eviction.

*Source: Coronavirus Aid, Relief, and Economic Security Act, “CARES Act,” signed into law 03/27/2020. Created 04/03/2020 for educational purposes only. Look out for updates to the dates listed above.
STOP THE SPREAD

**WASH YOUR HANDS FREQUENTLY**
Regularly and thoroughly clean your hands with an alcohol-based hand rub or wash them with soap and water.

**MAINTAIN PHYSICAL DISTANCING**
Maintain at least 1 metre (6 feet) distance between yourself and anyone who is coughing or sneezing.

**AVOID TOUCHING EYES, NOSE AND MOUTH**
Hands touch many surfaces and can pick up viruses.

Once contaminated, hands can transfer the virus to your eyes, nose or mouth.

**IF YOU HAVE A FEVER, COUGH AND DIFFICULTY BREATHING, SEEK MEDICAL CARE EARLY**
Stay home if you feel unwell. If you have a fever, cough and difficulty breathing, seek medical attention and call in advance.

Updated April 22, 2020
Use of Cloth Face Coverings to Help Slow the Spread of COVID-19

How to Wear Cloth Face Coverings
Cloth face coverings should—
• fit snugly but comfortably against the side of the face
• be secured with ties or ear loops
• include multiple layers of fabric
• allow for breathing without restriction
• be able to be laundered and machine dried without damage or change to shape

CDC on Homemade Cloth Face Coverings
CDC recommends wearing cloth face coverings in public settings where other social distancing measures are difficult to maintain (e.g., grocery stores and pharmacies), especially in areas of significant community-based transmission.

CDC also advises the use of simple cloth face coverings to slow the spread of the virus and help people who may have the virus and do not know it from transmitting it to others. Cloth face coverings fashioned from household items or made at home from common materials at low cost can be used as an additional, voluntary public health measure.

Cloth face coverings should not be placed on young children under age 2, anyone who has trouble breathing, or is unconscious, incapacitated or otherwise unable to remove the cloth face covering without assistance.

The cloth face coverings recommended are not surgical masks or N-95 respirators. Those are critical supplies that must continue to be reserved for healthcare workers and other medical first responders, as recommended by current CDC guidance.

Should cloth face coverings be washed or otherwise cleaned regularly? How regularly?
Yes. They should be routinely washed depending on the frequency of use.

How does one safely sterilize/clean a cloth face covering?
A washing machine should suffice in properly washing a cloth face covering.

How does one safely remove a used cloth face covering?
Individuals should be careful not to touch their eyes, nose, and mouth when removing their cloth face covering and wash hands immediately after removing.
Sewn Cloth Face Covering

Materials
- Two 10"x6" rectangles of cotton fabric
- Two 6" pieces of elastic (or rubber bands, string, cloth strips, or hair ties)
- Needle and thread (or bobby pin)
- Scissors
- Sewing machine

Tutorial

1. Cut out two 10-by-6-inch rectangles of cotton fabric. Use tightly woven cotton, such as quilting fabric or cotton sheets. T-shirt fabric will work in a pinch. Stack the two rectangles; you will sew the cloth face covering as if it was a single piece of fabric.

2. Fold over the long sides ¼ inch and hem. Then fold the double layer of fabric over ½ inch along the short sides and stitch down.

3. Run a 6-inch length of 1/8-inch wide elastic through the wider hem on each side of the cloth face covering. These will be the ear loops. Use a large needle or a bobby pin to thread it through. Tie the ends tight. Don’t have elastic? Use hair ties or elastic head bands. If you only have string, you can make the ties longer and tie the cloth face covering behind your head.

4. Gently pull on the elastic so that the knots are tucked inside the hem. Gather the sides of the cloth face covering on the elastic and adjust so the mask fits your face. Then securely stitch the elastic in place to keep it from slipping.

Things I Can Control
BINGO

Getting enough sleep
How often I smile
Owing up to my mistakes
Whether or not I accept myself
Setting my boundaries

When I practice gratitude
Treating myself with kindness
When I help others
Whether or not I keep my word
How I interpret events

How I "talk" to myself
When & if I forgive others
How truthful & honest I am
When I take mindful breaths

The goals I set for myself
Saying I need a break (& taking one)
Treating others with kindness
How much effort I put forth
When and if I try again

When I ask for help
How I respond to challenges
Reminding myself I am enough & worthy
How I take care of my body
How I relate to my feelings
